

Sustainable Event Management – Your Contribution:

The event organisation within the Austrian EU Presidency follows sustainability criteria and is certified with the Austrian Ecolabel. This implies a broad portfolio of measures, including the choice of location, resource-efficient procurement and local catering!

Your actions can also contribute substantially to protecting the environment:

- If possible, choose an environmentally-friendly way of travelling to Linz and use public transport or walk when travelling around Linz.
- If possible, stay in a hotel that has been certified as being environmental friendly (Austrian Ecolabel, EU Ecolabel, EMAS, etc.) and take advantage of the hotel's environmentally-friendly offers. We have highlighted these in our list of hotels.
- Turn off all lights and electrical devices (TV, air conditioning, heating, computer, etc.) when you are not in your hotel room.
- No single portion packages = more environmental protection: if possible, drink beverages served out of jugs or large bottles, eat meals served on reusable dishes, and use milk and sugar not packaged in individual portions.
- Recycle your waste (plastic drink bottles, glass, paper, metal, batteries, etc.) by disposing of it in the containers provided at the conference centre.
- If possible, use digital devices instead of paper.
- Use your own writing supplies.
- At the end of the event, place your badges in the container provided at the accreditation desk.
- Make use of the various means to compensate the CO2 emissions of your travel (car, plane), e.g. through www.atmosfair.de , www.myclimate.ch, www.climateaustria.at

Further information can be found at <https://www.umweltzeichen.at/cms/en/green-meetings-and-events/content.html>. For any questions, please consult event-management@oenb.at.

We appreciate your feedback! Please use the [feedback form](#) after having attended the conference.
